Dear Sir,

Now that the building of Costain Villas site is coming to an end, I would like to say how well the builders and contractors have tried to work around and help us during the construction.

Although the road has been closed, they have still made sure we have had access, and let us have leftover materials, i.e. alkathene pipe, and boarding, which we use for repairing and maintaining our lobster pots, and concrete for weighting them.

Kind Regards

Neil Davey.
